

BINGO BEARS™

with the
Three Bear Family®
counters

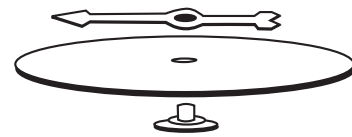

Never the same game twice!

Contents:

- 4 Bingo cards
- 32 Double-sided bingo tiles
- 1 Magic Spinner
- 36 Three Bear Family® bear markers

Before you begin:

Pop out the bear tiles from the 4 bingo cards.
The FREE space in the middle of each card does not pop out.

Assemble the spinner as shown here.

NUMBER BINGO BEARS™

For 2-4 players

Setting Up

Turn all of the tiles so that the red number sides face up. Players take turns choosing tiles and placing them in any space on their bingo cards with the red sides showing. Encourage children to make their bingo cards different from the other players' cards. Players continue choosing tiles until their bingo cards are filled.

Turn the outside ring of the spinner so that the red side faces up.

Playing the Game

Each player takes nine bear markers. The youngest player begins by spinning the arrow and calling out the number. All players check their bingo cards to see if they have that number tile. If a player has that number tile, he places a bear marker on it. Only one bear marker may be placed per spin. If a player does not have the number called, he may place a bear marker on his FREE space.

The spinner is then passed to the next player on the right. Players continue taking turns spinning and calling out numbers. The first player to cover three number tiles in a row, in any direction, calls out "BINGO BEARS" and wins!

COLOR BINGO BEARS™

For 2-4 players

Setting Up

Turn all of the tiles so that the white sides face up. Players take turns choosing tiles and placing them in any space on their bingo cards with the white sides showing. Encourage children to make their bingo cards different from the other players' cards. Players continue choosing tiles until their bingo cards are filled.

Turn the outside ring of the spinner so that the blue side faces up.

Playing the Game

The youngest player begins by spinning the arrow and calling out the size and color of the bear (for example, "Red, Mama Bear"). All players check their bingo cards to see if they have that bear tile. If a player has that bear tile, she places a matching bear marker on it. Only one bear marker may be placed per spin. If a player does not have the bear called, she may place a marker on her FREE space.

The spinner is then passed to the next player on the right. Players continue taking turns spinning and calling out bears. The first player to cover three bear tiles in a row, in any direction, calls out "BINGO BEARS" and wins!
