

Double Pocket Chart Stand Assembly Instructions

Contents:

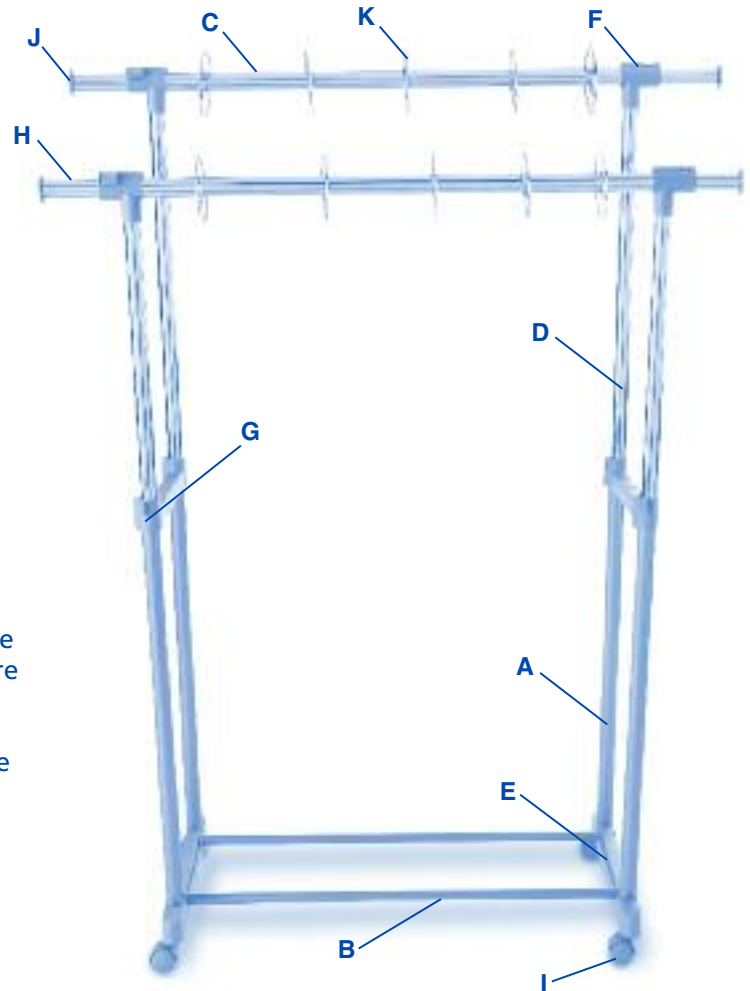

- A. Bottom Side Pole (4)
- B. Middle Bottom Pole (2)
- C. Middle Top Pole (2)
- D. Top Side Pole (4)
- E. Wheel Connector (2)
- F. L- Connector (4)
- G. Side Connector (2)
- H. Pull-out Poles (4)
- I. Wheels (4)
- J. Cap (4)
- K. Ring Hooks (10)

Build 2 Legs and Bottom Section:

1. Insert a Wheel (I) into each hole at the bottom of the Wheel Connector (E). Push wheels until they are all the way in.
2. Place Middle Bottom Poles (B) into the sides of the Wheel Connector (E). Push the poles until they are all the way in.
3. Put the Bottom Side Poles (A) into the top of the Wheel Connector (E). Push the poles until they are all the way in.

Build Top Section:

5. Push Side Connectors (G) onto Bottom Side Poles (A). Locks on connectors should be near the top. Be sure locks are open and to the outside.
6. Slide Top Side Poles (D) into Side Connectors (G). Close locks on connectors to hold poles in place. It is easiest to keep poles in the lowest position possible.
7. Attach L-Connectors (F) to Side Poles (K). Locks on connectors should be on top, towards the outside.
8. Fit Top Bar (C) into L-Connectors (F) on one side. Be sure it fits tightly.
9. While one side is still disconnected, slide Ring Hooks (K) into the middle top poles. Put 5 hooks on each pole. Now connect the other side.
10. Push Caps (N) onto silver ends of Pull Out Bars (J).
11. Insert Pull Out Bars (J) into Top Bar (C) and lock into position.
12. Adjust height of top poles and lock into position.
