Chart Setup

At the beginning of the year, write each student's name on one of the colorful student cards. Write the name toward the head and arms so that it will be visible on the chart. Make sure to use a dry- or wet-erase marker on the cards for multiple uses, year after year.

At the beginning of the day or week, choose the centers you want to use from the printed cards provided or make your own with the cards' blank sides. Place the chosen center cards in each pocket, two in each row. Then, place a student underneath the center card. When the students

come in, point out who is going to which center and with whom. When the center or student cards are not in use, store in the convenient storage pockets on the bottom.

Note: Use a wet- or dry-erase marker when writing on the cards to ensure repeated use. Test your marker on a corner of one card to ensure that your marker does not leave a permanent mark. Use a damp cloth when removing wet-erase marks from the cards. Cards will warp if saturated with water.

The simple yet attractive design of the pocket chart is the perfect addition to your classroom!
