

Creative Writing

 FLIP
CHART

The Creative Writing Flipchart is a quick and easy way to provide topics for students to write about. It can be used individually, in a small group, or for whole-class writing. Simply place the flipchart in front of the group or in a center or small group. The Who, What, Where, and When categories will help the students when writing. There are 15 double-sided cards for each category. One side has real life images and the other side has short, silly phrases that students can use in their story.

This chart was designed to help spark imagination. Remind students that they are not locked into using the exact prompts given in the flipchart. When writing creatively, students should have the freedom to write about what interests them or what comes to mind.

This is a perfect tool to use when students have writer's block. It encourages and stimulates creative thinking. With the help of this flipchart, every student's story will be unique and creative!
