Design & Technology
Design Your Own
Board Game

Name ........................................................................

Activity Book
Can you design your own board game? Use the templates to try! Add a fun design to the game board and player markers, and carefully fold the dice ready to roll.

You will need:

Crayons or felt tip pens
Glue or sticky tape
Scissors

What will you call your game?

What theme will your game have?

How do you play the game? How do you win the game? With the help of an adult, write some simple instructions.
Can you design the board?
Perhaps you could try a Snakes and Ladders style game!
Include snakes to slide down, and ladders to climb up.
With the help of an adult, why not cut out the board and stick it onto card.

Design your own counters

〇 〇 〇 〇
Make your own dice
Cut out the template.
Carefully fold along the inside lines.
Now fold the tabs. Add glue/tape to one, then stick it into place behind the adjacent face.
Stick the rest of the faces together along the tabs to form your dice!

Now have fun playing your very own board game!
