How to use our weekly planners

We’ve produced 3 planners for you to print off and use at home.

• The first planner is a full programme of suggested activities for children, both with academic learning, (using some of the activity sheets we’ve included on our website) and outdoor play.

• The second planner is blank, just to help you plan and organise your day!

• The third planner contains ideas for outdoor play - even in small spaces! We’ve included ideas for cross-curricular learning as well as extended learning opportunities, both in and outdoors that children of all ages will enjoy!

We’d love to see what you’re doing at home, so please share on social media and tag us #lovelearning

Have fun!
