Scrambled Word Building™ Activity Book Grade 1 offers a fun and exciting way for children to learn to spell and read! This activity book is an excellent tool for use at school or at home to reinforce spelling and decoding strategies. With these hands-on activities, children will explore the letter set given for each scrambled word, manipulate letters to build words, focus on word parts, and much more!

60+ Scrambled Word Building™ Activities
Cover:
• Building Words
• Recognizing Word Parts
• Identifying Patterns
• Extension Activities for Added Fun

BONUS
70+ alphabet cards for word-building activities!

Introduction

The Scrambled Word Building™ Activity Book offers a fun and exciting way for children to learn to spell and read. These activities have been designed to be used as either homework assigned by a teacher, or with a parent. Before sending the activities home as homework, it would be helpful to go through an activity or two with the class as a whole, so children will know how to complete the activities.

Each activity in this book consists of four parts:

**Look For:** At the top of the activity page, children are provided with a set of letters to work with. The same letters are printed in boxes across the side of the activity sheet. Children will cut these letters out and manipulate them to build words. These letters will be used to form as many words as possible. Eventually, all the letters will be used to make the scrambled word. *Note: If you are using this activity book at home, we have included two complete alphabet letter sets. These letters can be used instead of cutting the letters on each activity page. We have also included an envelope at the end of the book to store the letters that have been used.*

**Build It:** The Build It section prompts the children to write down the words they have built. The blank lines, ranging from two- to five-letter word possibilities, indicate the number of letters needed to spell each word. *Note: There may be more words that can be built than the number of blank spaces available.* As children decode and build several words, they will figure out the scrambled word by using all the letters in the activity. Parents and teachers are encouraged to get involved and help with this section, as some first graders may find this to be a challenge.

**Focus On:** This section provides extra word-building practice by having the children focus on identifying the words they have built from the scrambled word and placing those new words in their appropriate category. The categories focus on initial consonants and alphabetizing. For extra practice, children should be encouraged to discover additional words that fit into each category.

**Challenge:** This is a suggested activity or question related to the word that the activity focuses on. Some of these Challenge activities will require the simple knowledge of the scrambled word, while others will require a small amount of research. Any research should be able to be done on a computer, in an encyclopedia, or in a dictionary. The research should not take more than a few minutes and can be used as a way to learn more about the scrambled word or to enrich the child’s knowledge.

If this is to be used as homework, allow the children to check their own activity sheets in class. Children can share words they have built, compare their words with those of their classmates, and share the answers to the Challenge questions. Encourage children to have fun exploring and building new words!
Possible Answers Found in the Activities: 1st Grade

1. stamp: am, as, at, map, mat, past/spat, pat/tap, sap, spat
2. swing: in, is, sign/sing, wig, win, wing
3. wagon: ago, an, go, goun, no/on, now/won/own, wag
4. apron: an, nap/pan, no/on, oar, or, ran
