Directions: Use the Seasons cards, 1-4 number cards, and one color marker per player. Arrange the Seasons cards face down, in the center of the board. Put the number cards in a bowl or hat (so kids can't see).

- Place your marker on your camera. On your turn, move forward one space.
- Turn over a card from the center of the board. If you find the matching card, pick a number card and move that number of spaces. When you find the matching card take another turn.
- If you do not find the matching card, it is the next player's turn. You must continue to look for that same card on your next turn.
- Return the card face down in the center of the board after each turn. Notice that the cards have a color-coded border to help find the matching picture.
- The first player to return to his or her camera wins.
